## CYCLES OF POVERTY INTO PATHS OF POSSIBILITY

People around the world lack clean water, nutritious food, access to healthcare, education, and more. This can be overwhelming—but at CHOICE Humanitarian, we don't accept the status quo.

In our 42-year history, CHOICE Humanitarian has worked with and through thousands of rural communities to touch over 2 million lives. At the core of our approach to international development is sustainable change. When we disrupt the status quo and expand options, the paths of possibility are limitless. **Disrupt with us.**
